

To All OIRCA Active Members:

## Promote your company at **ROOF**Tech 2017 April 25th & 26th

This year **ROOF**Tech is back in Toronto and being held once again at the International Centre near the airport. We are encouraging Active Members to make use of the outdoor exhibit space at the show. There has been a great deal of promotion over the last couple of years to the design community i.e. architects, roofing consultants, specification writers etc. as well as to building owners and property managers.

OIRCA and CRCA believe it would be an ideal opportunity for our roofing contractor members to promote their company to these sectors of the industry.

Members would have the option of either setting up an outdoor booth or simply placing company vehicles strategically located near the entrance to the indoor exhibits.

We have secured special outdoor booth pricing for Active Members. Show information is also attached. Anyone interested in showcasing your company please contact Richard Shanks at [richardshanks@ontarioroofing.com](mailto:richardshanks@ontarioroofing.com) or 416-526-9282.
